RE: RoHS2

To Whom It May Concern:

Regarding the information requested concerning Unified Wire and Cable products:

Unified Wire is aware of the "Restriction of Hazardous Substances" Directive, citation 2002/95/EC and 2003/11/EC, 2011/65EU commonly known as RoHS2. This Directive restricts the use of six specific substances in electrical and electronic equipment sold in the EU beginning July 1, 2006.

These six restricted substances are:

1. Lead
2. Mercury
3. Cadmium
4. Chromium VI
5. Polybrominated biphenyls (PBB)
6. Polybrominated diphenyl ethers (PBDE)

Also, Unified Wire does not use any of the following which can be considered similar in nature to the brominated materials in RoHS:

1. Pentabromodiphenylether (PentaBDE)
2. Octabromodiphenylether (OctaBDE)
3. Decabromodiphenylether (Deca BDE)

Additionally, under the proposed RoHS 2, more substances may be restricted if they pose an unacceptable risk. They would be reviewed by the Registration, Evaluation, Authorization-and restriction of- Chemicals (REACH) methodology and additional substances are listed that will be assessed as a priority.

Accordingly, Unified Wire does not intentionally add these substances to any of our product. As you may know, products made with antimony oxide, and copper, may contain trace amounts of lead impurities.

**These RoHS restricted substances are:**

<u>MATERIAL</u>	<u>ROHS Directive</u>
1. Lead (Trace element in copper mfg).	allowed 1000 ppm (0.1%)
2. Arsenic (future listing)	to be determined

Therefore, as of this date, the product we supply is in compliance to the RoHS2 2011/65/EU directive.

The PVC compounds used in some products does contain antimony oxide, which is a California Proposition 65 chemical. Keep in mind that all of our PVC based compounds are produced with polyvinyl chloride resin that may contain trace levels, < 0.001% by weight of vinyl chloride monomer, which is also a listed California Proposition 65 chemical. This is in addition to the lead and arsenic – also California Proposition 65 chemicals, which may be present as reported above. Please see MSDS for further information.

The product does contain copper however does NOT contain any Metals of Conflict Sources, Beryllium, Nickel or Nickel based materials Red Phosphorous, Latex, Melamine, Bisphenol A (BPA), Perfluoro-octane Sulfonates (“PFOS”), Polycyclic Aromatic Hydrocarbons (PAHs), Chlorinated Solvents, Dimethyl Fumarate (DMF), PCBs or Asbestos compounded into the products.
