RE: Proposition 65

Dear Customer,

UWC places on the outer packaging of all parts manufactured and shipped, a label indicating the appropriate warning information per the latest Prop 65 declarable substances list found at <https://oehha.ca.gov/proposition-65/proposition-65-list>.

This label meets or exceeds the requirement for packaging per <https://www.p65warnings.ca.gov/> and indicates the inclusion of substances known by the State of California to cause cancer, reproductive harm, or developmental harm.

An example of this warning label is just below:

As your supplier we realize we must be fully committed to comply with this legislation. We will continue to monitor our suppliers and collect the environmental data to ensure all our products will continue to comply with California Prop 65 requirements as they evolve.

Sincerely,

Matt Allen
